HYDROPHOBIC WEAVE
It carries moisture to the outside so it can evaporate. The skin is always dry and thermoregulation is constant.

ANTISTATIC SYSTEM
The carbon yarn isolates the static electricity caused by the rubbing of fabrics

TECHNOLOGIES

- Antistatic system
- Hydrophobic weave

Multi-purpose neckwarmer made of Carbon Underwear® protects the athlete's neck, nose and lips from the cold while always letting the skin breathe. It can also be used as a hairband or headliner. Handy and convenient to always have within reach both during the summer and winter.

MATERIALS

Carbon Underwear®
Breathability and thermoregulation without compromise. Perfect for all seasons of the year. Antistatic fabric.

Color Carbon Underwear®
Breathability and thermoregulation without compromise. Perfect for all seasons of the year. Antistatic fabric.
