

WINTER TOURISM

WINTER BALACLAVA WITH WIND STOPPER DICKIE

CODE **WTB LONG**

COMFORT FIT

The zones subject to cold drafts and wind are protected by our Winter Barrier®. The top area - where there is no direct contact with air - has inserts in Thermo Carbon Underwear® that maintains thermoregulation by taking sweat away to the outside and keeping the skin dry

AIR SHIELD

Breathable windproof protection that creates a micro air cushion that insulates from cold and wind

BLACK

TECHNOLOGIES

- Comfort Fit
- Air Shield

Long winter balaclava for extreme climates and conditions: total windproof and waterproof protection in the sensitive zones (like the neck, shoulders and chest) where icy air strikes the hardest. The portion of Carbon Underwear® fabric keeps the head warm, thermoregulated and dry since it eliminates moisture.

MATERIALS

Winter Barrier®
Water-repellent, windproof and thermoregulating.

Carbon Underwear®
Breathability and thermoregulation without compromise. Perfect for all seasons of the year. Antistatic fabric.
