**TECHNOLOGIES**

- Seamless Technology
- Antistatic System

SIX Carbon Underwear long sleeve turtleneck jersey with zipper that is breathable and thermoregulating in any weather condition. The long sleeve hugs every part of the arm to keep the skin fresh and lies between the skin and a top garment. It also slightly protects against cool drafts if a short-sleeve top garment is worn. The mock turtleneck collar, which can be opened using the handy front zipper, protects the throat from sudden temperature changes and cool drafts.
