

## EXTREME MOTORCYCLING SOCKS

CODE **MOTSLONG**

### SEAMLESS TECHNOLOGY

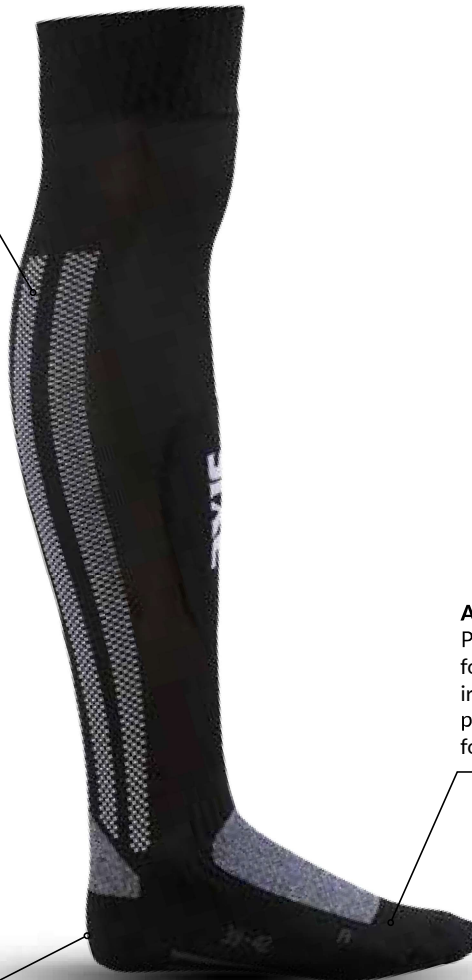

Fewer seams to provide absolute comfort

### ANTIBACTERIAL FIBER

Polypropylene fiber prevents foul odors and annoying irritations due to build-up of perspiration and chafing from forming

### HYDROPHOBIC WEAVE

It carries moisture to the outside so it can evaporate. The skin is always dry and thermoregulation is constant.

**BLACK**

### TECHNOLOGIES

- Seamless Technology
- Antibacterial fiber
- Hydrophobic weave

Special socks designed for professional use with motorcycle Off-Road boots. Long (above-the-knee) socks developed by SIXS to be used with Off-Road knee guards. The seamless design, the anti-torsion elastic band on foot and ankle, and the abrasion-proof reinforcement on the shin and instep make this product particularly comfortable and high performing even after many hours wearing motorcycle boots. The reinforced BreathFit Socks® fabric also allows the athlete's feet to stay dry all the time by protecting against a build-up of perspiration, and hence the creation of foul odours.

### MATERIALS

BreathFit Socks®  
Ultralight, durable and extremely breathable: the composition was studied to achieve ultimate sweat wicking and thermoregulation.

### CARE

### SIZES

35/38, 39/42, 43/46, 47/49

Breathability:

Thermoregulation:

Wind protection:

H<sub>2</sub>O protection:

### COMPOSITION

62% Polypropylene,  
22% Polyamide, 16% Elastomer
