### INTELLIGENT SAFE PROTECTION

Thanks to the special impact-sensitive protectors, the product is soft and pliant, so it perfectly adapts to the body's anatomy. The protectors stiffen at the time of impact and absorb the force of impact.

ALL BLACK

### TECHNOLOGIES

- Intelligent safe protection

Elbow guard made of Polyfiber Cover to achieve optimum breathability and thermoregulation, with inside pocket for inserting the protective element. The pocket prevents the protector, which after being heated by the body's heat precisely follows the anatomy of the joint, from moving. After a few minutes you forget you are wearing it, but in the case of impact the protector stiffens and protects against impact.
